WHY WE ARE HERE

Gloria Lee (March 22, 1926 – December 3, 1962) was an American airline flight attendant and a follower of [Oahspe](#) who became part of the 1950s contactee movement in 1953.

Gloria Lee, one of the prominent flying saucer contactees of the 1950s, was born March 22, 1926, in Los Angeles. She developed an interest in flying as a teenager and became one of the early airline stewardesses, a position she held until her marriage to William H. Byrd in 1952. About this same time she developed an interest in flying saucers, then being raised as an issue by George Adamski, who claimed [contact](#) with extraterrestrials.

In 1953 Lee began to receive messages from the saucer brothers through the process of automatic writing. The first messages were received while she was at work. The contacts led her into association with several occult interest groups. The regularity of the messages increased, and eventually the automatic writing gave way to telepathy. The extraterrestrial identified himself as J.W., a Venusian who came from a race of people who no longer used vocal communications and in their evolution had lost their vocal cords. They communicated by telepathy alone. (on a fine physical level called the etheric plane, and which we are all on during sleep. R-rem.) As the communications continued, she attempted in various ways to prove J.W.'s existence, both to herself and others. In 1959 she founded the Cosmon Research Foundation and published her first book, *Why We Are Here!* The book shows some background in Theosophy. Theosophy pictures a hierarchy of spiritual beings that stand between humanity and the divine. In Lee's thinking, that hierarchy had been transformed into a space command hierarchy. A second book, *The Changing Conditions of Your World!* appeared in 1962.

*

So, as we rewind a little, ms. Lee, a native of Los Angeles, claimed to be in telepathic communication with an entity known as JW, who lived on (the etheric level of-) the planet Venus, and began to assemble a book of his spiritual teachings as dictated to her. At his direction she founded the Cosmon Research Foundation for the purpose of publication and study of JW's superhuman wisdom, much of which bore some resemblance to the 1882 teachings of Oahspe.

Membership in Lee's organization rose sharply after advertisements were regularly carried in Ray Palmer's monthly occult magazine *Fate*. She hit the contactee lecture circuit and attracted considerable public attention. During her lectures, Lee sold copies of her book of revelations, *Why We Are Here!* (1959). The year of her death, a second "JW" book was published, *The Changing Conditions of Your World!* (1962).

She developed a plan for world peace and a space station design and took them to Washington D.C. in late 1962 in an attempt to bring them to the attention of officials. However, after being rebuffed, she launched a hunger strike or protest fast, telling others in the UFO contactee community that she expected to enter a coma resembling death, then "return" with renewed spiritual energy to carry on her "great work". However, the press were not notified of Lee's hunger strike until some time after it had begun, and she attracted no publicity. After approximately 66 days without eating, she was taken to George Washington University Hospital. She died there on December 3, 1962 at the age of 36.

By the early 1960s Lee was a well-known figure in the contactee subculture. In the fall of 1962, accompanied by her friend and colleague Hedy Hood, Lee went to Washington to attempt to interest political leaders in her ideas about the space brothers. She wanted financing and assistance to build a spaceship, the plans of which had been given her by J.W. She found no positive response, and on September 13, the pair took a hotel room and Lee began a fast to call attention to her ideas. No one listened.

Immediately after her death, several contactees claimed to have talked to Gloria Lee in her new spiritual existence. Verity of the Heralds of the New Age (New Zealand) and Yolanda of Mark-Age both produced booklets of what they claimed were communications from Lee. Lee was considered a martyr by the contactees of the 1960s but was soon forgotten as new people who did not know her moved into leadership positions.

After her death, Charles Boyd Gentzel, the founder of Mark-Age, Inc., and his partner Pauline Sharpe (also known as Nada-Yolanda), claimed to be channelling spirit messages from Lee on behalf of their own UFO-contact cult. Lee is not the only contactee or would-be contactee to starve herself to death. In November 1982, LaVerne Landis, a member of the UFO cult Search and Prove, died of starvation while waiting in her car in the northern Minnesota woods for over 40 days for a flying saucer to land, after reportedly being told to wait there during psychic contact with a Space Brother.

Gloria Lee founded Cosmon Research Foundation and published books "Why we are here" and "The Changing Conditions of your World!" under the influence of JW Superhuman Wisdom.

INTRODUCTION

'When contact was first made with the author of this book, in September of 1953, even I, found it difficult to believe. Often I wondered if my mind had created the fulfillment of such a desire. I even ventured to wonder if perhaps the "man in the white coat" would find me decidedly lacking in grey matter or suffering from some type of hallucination should I tell anyone.

From the first suggestion brought out in the newspapers that we may be having visitors from outer space, I was delighted over such a possibility. It always seemed totally unreasonable to me this planet should be the only planet in all the universe to support life. In a universe of unknown immensity, I felt enraptured with any being who might step out of the misnamed "flying saucers," onto our Earth and prove to the "we're the only ones" egotists that God did not blindly create planets all infinite and just reserve Earth for us. Any creator has to have reason behind his creation.

As the communication continued with my man from Jupiter, identified only as J.W., who said they did not have names such as we do, I felt within there was truly something to this besides the interest. I finally confided in a friend of mine who had introduced me to the occult world, His intelligence, education, and knowledge was way above my own and whose criticism I would respect.

Much to my surprise, he didn't laugh at me but was even enthused I may actually have made contact. We discussed the various messages I received and thought up other questions.

Of course I was very eager to meet my "space man" in person and whenever the thought entered my head, J.W. was forever telling me it seemed, "Be patient, Gloria!"

This seemed very unfair to me that I could never have any "proof" of the existence of the person I communicated with daily. By this time, many people had allegedly seen, talked, and taken rides in flying saucers and I was quite willing and ready to do the same. However, much to my chagrin, this never materialized and I began to doubt the person with whom I was in contact.

My friend, previously mentioned, told me not to get discouraged. We would also be very cautious of any contact we might make if we were to go to another planet, There was, of

course, the possibility that some playful discarnate being might be playing a joke on me, but if this was the real thing, it was certainly worth the effort to continue with the experiment. After all, it wasn't every day you're contacted by someone from Jupiter!

In order to gain some sort of "proof" I attended several organizations familiar with things of psychic nature and discouragingly enough, whenever I mentioned I had made my contact through automatic writing, I was bluntly told, 'Forget it!' But somehow I felt there was something. It always seems easier to disprove than prove a thing at times and this looked like one of these times. I felt an inner compulsion to really find out who or what, if only to satisfy myself.

Discouragement won for a while and it was a matter of months before I would again make contact. Frankly, I was just plain disgusted J.W. didn't "drop in for a visit" if he was who he said he was. After ignoring him for some time, (there were times when I knew he wanted to talk to me very badly), I was very strongly impressed to again take up the communication. I almost reluctantly did so if only out of curiosity.

It's true that one day while doing the family wash, I had just stepped outside to hang up the clothes for drying when the impression was so strong, it seemed a voice said, "Well, you've been wanting to see one—look up!" And when I did — there was a saucer, big as life, flying north towards Santa Monica! We lived in Westchester at the time.

Flying saucers were far from my mind that morning as my washing machine had been acting up, so this was certainly a wonderful surprise. Later, I heard via the Saucer Clubs some people in Redondo Beach had also seen one the same time, going in the same direction and of the same description. So

I felt if I were having an hallucination, at least J wasn't alone!

I learned to fly an airplane before I ever learned to drive a car and have flown over a good part of this world as an airline stewardess for five years. During that time, I searched wildly, hoping to see one, but never did. Several pilots, crew members and stewardesses I personally knew, had seen them and had even been "buzzed" by a saucer. It seemed very unlikely a veteran crew and a plane load of passengers could conjure up a backwash in their minds capable of swaying a DC4!

Through the efforts of J.W., I now know, I joined a class of "psychic development" for the purpose of seeing if it was at all possible for me to develop. The class was comprised of people with varying degrees of psychic ability and I was utterly flabbergasted when someone described a person who claimed to be a "space man" and identified himself as J.W.!

Now, how did they know about him, unless they could actually see him? This contact was such a thing I couldn't gracefully go around telling people about without dire consequences.

Through this class, I received many confirmations of the messages I received from J.W. He began to seem very real to me and possesses a wonderful sense of humor which manifests itself from time to time. During one session he had promised to give me a message through someone but I waited through the whole class in disappointment. After class, a lady came to me and presented me with a card on which she had made a rough sketch of J.W. in a uniform. ***She apologized for a lack of artistic ability but said she saw him come in and stand behind me.*** While he stood pointing at me, he mentally impressed her to try and draw what she saw.

That card was the most tangible "evidence" I had acquired of J.W. outside of the messages I received from clairvoyants who did not know of his existence prior to his communication. Since this time, I have developed a spasmodic clairvoyance but have still not seen J.W., other than a manifested light form, by my own psychic power, I have talked to him in materialized form and via direct voice control, but for those of you, who may still doubt the existence of a person called J.W., *I can give you no concrete proof which would satisfy only the five senses.*

I myself, do not understand the reason behind this, but I'm sure there is one. Whether it's a test of your faith and it certainly has been of mine, I cannot say. However, the fact a book was written, is ample proof of an author and **in all honesty, I did not write this book!** I feel no sense of the natural

pride an author may have for his book. I'm pleased I was chosen to be the instrument through which the book was written, *though I have doubted the choice to be spiritually and mentally equipped enough for such a book.*

When I was first told I would write a book concerning space people, I thought fine, and waited once more to take a trip in a saucer. But no such thing happened. I was very disappointed and wondered many times, "What in the dickens do they expect me to write about?" So I made contact with a man from Jupiter through automatic writing which later developed into mental telepathy. They had pink skies and blue trees, but so what? The book I thought I was to write sounded like it would be pretty idiotic with such shallow information,

It never occurred to me J.W. was to write the book through me until it was actually started! Nor did it ever occur to me why the book was to be written by telepathy until I was half way finished. Although I was aware of the fact, it never completely lodged itself in my mind. I kept thinking, if he can project himself strong enough to be seen, why couldn't he just pick up the mike to my tape recorder, dictate, and I could type it out?

Why? He has no vocal cords! His people are so advanced, they have gone beyond the necessity of vocal communication and converse solely by telepathy. During their evolution they merely outgrew the need of vocal cords and the spoken word and developed highly refined telepathic powers. When this revelation dawned on me, J.W.'s only comment was, "Now, you're thinking!" And I thought it about time.

No, I can't prove J.W. is real in a material way, not even for myself. But I know he exists and his book exists. I can't prove God in the court room either, but you exist and this planet exists. Every creation has a creator, I can only give you my word and show you his manuscript and perhaps introduce you to clairvoyants who have seen him. But again, it would only be his word. As J.W. says so often, "always look within your God-self to find the Truth."

I have read and studied this book with as much interest and profit, I imagine, as any reader will. Each time before I sat down to receive from him, I prayed and declared that only Truth could come to me and only Truth can go from me. The question may arise, do I believe the book? Without hesitation, yes, if I can have faith in my instrumentship. There will undoubtedly be criticisms as to the manner in which this book was written and as to the truth of my statements regarding it. This is usually the case with people who can only attest to the five senses and those who prefer to believe that all claims about and within the book are but auth-

or's fictions.

Not unlike many of the readers, I too, am confused as to the variety of differences and contradictions in so many of the received communications purported to be from Space Beings. Many of the things I have read match fairly well with what I have received, but in some instances, there is a direct contrast. Why? I don't know exactly, unless it lies with the short-comings of the instrument or within the knowledge of the communicator. I imagine they also have a few short-comings in this department also.

They, too, hold various positions of authority (or none), and may possibly tend to repeat something of hearsay or alleged knowledge without first checking sources. Then, I firmly believe, many so-called space people are in reality discarnate beings or perennial jokesters who pass from the physical to the "other side" but where one's personality does not change by crossing. I have seen all too often, unfortunately, people beginning to dabble in extra-sensory perception, believing anything received is gospel truth. There will always be those personalities, whether in the flesh or out, who desire recognition regardless of the manner they might get it. And few people realize the importance of their own consciousness (or vibration) has a great deal to do with what they receive and whom they attract. Many negative experiences have occurred because of this ignorance and much could be said that space does not permit.

I have personally come to know of many of the Truths contained in the book, but many things, I just don't know. I only hope to keep an open mind and ask you to do the same. I asked for Truth in the name of God, and I know many times, Truth is not to our liking. Knowing this, I said, whether I understand or believe it or not, is unimportant, but if it is true, put it in the book!

Well, to be perfectly candid, it overwhelmed me and my earnest and steadfast prayer is that this book can and will, in some measure, help this suffering planet to understand the cause behind the effect and our search for knowledge of the mystery of life. It can be met so the ever evolving Soul will

beyond reason, but the reasons appeared 'later. We too often, let others do our thinking for us. The producer becomes more capable and the dependent becomes more dependent. We have watches but cannot tell the time through our own ability. People should learn to develop these inner faculties. Social

re-organization should center around a deeper perception: knowing how to do the right thing at the right time. Holding the thought of right action and tuning in to universal laws should be the substance of social functioning in the future. Our civilization has risen on delusions and superstitions, and the pain and tragedy of our misappropriated creations are now facing us squarely. The blind have led the blind into a welter of ignorance by those who believe as humans think, rather than that which is true and real. When a race or nation refuses to let go of deluded human thought instead of reality, the accumulated vibrations reflect back and war, strife, discord and death result. All these things occur because of man's own will and thought.

*

"God will then teach us." He corrected me with "God never teaches, but guides. **Man is his own teacher.**" We teach ourselves and God is always there to guide us back when we can't find that right path, *God never forces His Will on man.*

Whatever condition we must face, always lies within ourselves. It was very significant when over twenty years ago, the renowned Edgar Cayce gave a reading which said that if the Versailles Conference succeeded, the world would experience a millennium. If it failed the world would see the same elements plunging humanity into a second and far more terrible war by 1940. It seems man always has those two paths to choose from and takes the worst. Which path will we take this time?

J.W. has mentioned I incarnated from the
(higher levels of-) **planet Venus.**

This, I just don't know and make no claims about it, even though certain psychic experiences point in that direction. It really doesn't matter for we all live in eternity now and this life should be lived accordingly. As the great Bard said, "All the world's a stage and the men and women merely players!" Exactly how I feel. I have been given a part to play and only wish to portray it to the best of my ability.

When people have been told, "the space beings live and work among us," means, they have taken up embodiment. Whether I am one or not, as I said, I don't know, *but many of you who now read this, may very well be.* They could not stand the vibration of our physical realm (nor could we stand theirs) if they came to us in their physical, which is etheric in nature. But all this will be explained in the book.

I ask you in all sincerity, not to look to personality of J.W. or myself, but only to the teaching and advice of 2 Soul higher on the ladder of returning. I would prefer to bring

you this book. with no mention of myself whatever but was told this was not in the plan. You will want something tangible if only a bewildered Instrument who believes in God and in man as His son.

And as “God plants His seeds in unexpected places,” I pray, I can carry out the work intended if it will help you in any way at all, In order for you to understand the Truth about the Space People and our universe, certain (termed) religious concepts must be brought out—read with an open mind and an open heart. This book was brought to you with the combined effort of many, seen and unseen, Tears, tests, trials, teaching, fear of criticism, but finally, understanding of purpose and an honest desire brought forth this book in the hope it will illuminate your understanding about yourself, God, and the Visitors from our Solar System.

Chapter I

INTO THE REALMS OF OTHER WORLDS

Your world must now be cognizant of other worlds. Today, people of this planet will be living in other vibrations. It is now the time for the people of earth to be interested in us. We have come to your planet to help with your evolvment.

Since we have been seen, we have not been recognized by your government, but soon we will be. We have come in love and peace. Unfortunately, too many people will not begin to understand why this is so.

‘We bring you the way to a new life. We can help your planet immensely with the knowledge in our possession. Your planet should be in harmony with the rest of our solar system, Your people must now learn to use the intelligence God has given to them. Many problems arise in this life for the God within to speak. We can help you, as our present evolvment allows us to solve problems that can and do arise with this God-self.

Turn your thoughts to God and many new concepts will come to you. The correct way of life will begin to manifest when you are in this higher consciousness. We must be ready to help each other now. In the Age developing, many will not be ready because they will not be in this consciousness. The few who try to stand alone will fall without proper guidance.

Tune into your Higher Self.

The Creator has placed a Cells of His Own Being within each man, **This Cell will bring the realization of your own God-being.** Through this Cell comes enlightenment. Man will travel to the worlds without in the light. The moment is at hand for your planet to take the greatest evolutionary step you will probably ever witness, Many of you will be able to see between the world of the physical and the world of the spirit.

We will be seen more and more in your New Age. By our being seen, you of this planet, will realize there are worlds beyond your own. We have the Christ consciousness in our world because we draw God is the Executive, We will be here to show you what is in store for your planet.

‘We come in the God consciousness and soon you will be in the Christe consciousness. This will bring many changes. We will help you commercially, in your economic situations and with your machines. You will see much progression.

Your evolution is now at this great turning point and progression will continually be greater. The only way this planet will not be in harmony, is in the consciousness of the people. All things come with the God consciousness, but the vision of this consciousness is what is important—not to fly to the moon; but to realize the Christ within you. This realization brings the only correct way of life man has known.

We'll be with you in the crisis which is to come; but be in the Christ consciousness, Only then can your planet progress farther into the realms of the higher worlds.

Ave must be scoxpted by your le for what we are be fore we will be ofctially cognted Newt before have we ever attempted to be recognized by the masses. In the past, we were only attempting to instruct the few who would accept us. This has been much to our sorrow, but because of the few who were with us in belief, your planet has been greatly helped, But unfortunately, these few have been greatly cidiculed and persecuted because of their belief.

‘We come to you today only to be of help and not work out your karmic patten. There lies much negation in your karmic pattern. You have been building it for thousands of years and it must be fulfilled, In growth there is always, what you of the physical plane call tragedy; but with tragedy comes thinking and in thinking, you turn to God. This is true of all men, for without tragedy they would only coast along.

‘The tragedy of men is usually the reason they turn to God. They find it necessary, to mind, to call on a Source higher than they can understand. You will fall without this higher

power. You can only progress with it. Try only to see God, not man and his negation, because the negation man has built up on your planet may one day rule you. That day may be soon as you must fulfill your karmic pattern. This is necessary in order to take these steps of evolution. You will travel in the light and you will grow. This will be your test of the love you have for God, since man must find out reasons for himself.

The time factor is all important. We will help you at the eight tinte in the plan. You shall be able to understand why this negative force exists with my help. This has been related to you in numerous books and magazines, but I will tell you this: soday is the sime! There must be a karmic cleansing® before you can progress. Only then can the lore of God be understood. This is the reason you must be ared and with God during the time this negative force is Oke worked out.

Aftec this has manifested in your life you will understand why I said you would call it a tragedy. However, to us, this so-called tragedy is the sep you take into the New Age. The Aquarian Age is here for your planct. Be not afraid; for then fear will cule and God will be tek out,

‘Try to be only mindful of your Creator and the God qualities in men, In this thought alone is power for you to step ahead and to be uplifted to the Christ consciousness. Wheo you see the “saucers” as you call them, in your skies—be aot afraid. We come only to help you. This is why we are here—to help you in this evolutionary step into the New Age.

We come only in peace and brotherly love. We want to help you progress understand why this negative factor is involved, Without a cleansing of your planet, you could not forge ahead in your physical world. We have only the love you will one day feel for us in our hearts. Some of you try to create us as negative in your fears, while in reality, we are here to help you establish yourselves in the new vibrations of the Aquarian Age.

This is a momentous occasion for the entire solar system, ‘The step your planet is soon to take, will complete the whole solar system in being with God. Your planet is the last® to enter into the Christ consciousness. All the planets in this system will rejoice for your progress is to their joy. As I have told you, the minds of your people will look upon this step only as a tragedy. Bat remember, with this step, look only to God and He wilt be with you as we are.

We must be here to help you or many of you would perish. Remember, the things you create in your mind must not be given strength of Truth if you wish to be helped. You cannot go forward without the realization of the God within.

Be with us and the world you now know will be changed into the world of your dreams. Then you will really feel the brotherly love your philosophers and teachers have been trying to teach you for thousands of years. Now, with this New Age vibration, the love of God shall be more intense. And you shall feel this love within your hearts, Love shall be made manifest over your entire planet.

This is only the beginning. Your world will see many changes and many things will be revealed to you. Your lives will be completely changed, but remember, it is for the best, The time is now, We must help you progress. You will be led in our love and through God's, This has been decreed by the Logos of our solar system. Before the planet of earth is to go forward; we shall land and be recognized for what we are and then you shall take your step into the future,

Because we never came in such mass before you may be frightened. Be not afraid. We come in love, This is our pleasure to help you take this evolutionary step. We too, can be helped by your step. On the planet you call Saturn, there is a Tribunal with a seat reserved for your planet—the last of the solar system to enter into the Christ consciousness.

‘The way is clear now but the work is great. Never before in this planet's history, will so much be happening at once. we must be able to communicate with you in the language you can understand so we can be of service.

In cases where we have been accused of being instigators of the secret society of evil, you will not be too receptive because, but we must try and help you, People can only be helped if they will / or someone help them, Try to be in the consciousness of God and you shall be helped.

We will be with your planet until the New Age is completely established. Then we will be brothers in love. This is the objective of our Solar Logos for us to be under His influence of love and not to remain in separate worlds of consciousness. Though you must remain in the physical world when you reach the Christ consciousness, the world of Spirit shall become apparent to you. No world shall be apart, one from the other, for when you advance to this stage, neither your world or mine shall be without God.

The Christ is the Will of God. Your planet will progress through this consciousness, in the future, now being worked out in the Mind of God. The people of your planet must try to understand what is happening in their world, Never before has so much had to be worked out than now.

Instead of worry, fear, and worn concepts, only be mindful of the help you have to take this step. Only after this step has been taken, can your planet join with the other planets and take the initiation with this solar system. The Will of God is the Mind we must follow, for within lies a Plan. The Plan is for the whole solar system to develop to the point where our God is, When we have reached this point, then we shall be gods, But for the present, we should only think of what we must do to become these gods.

The Mind of God is so perfect, it is even inconceivable for us on the higher planes, to comprehend this wonderful Intelligence that exists, The Mind of God knows only justice and harmony....

Else: on GLORIA LEE

Gloria Lee, director and founder of Cosmon Research Foundation and well known lecturer in the New Age field, underwent a transition at 9:55 p.m. EST, Dec. 3, in George Washington University Hospital, Washington, D.C., after fasting for 66 days.

According to newspaper reports, Gloria was taken to the hospital in an unconscious state, after her husband, William H. Byrd, informed by a hotel clerk that his wife was near death, called Washington authorities and asked them to go to the hotel where she was staying. She died at the hospital a short time later.

Understanding magazine queried Cosmon Research for further details, and we are extremely grateful to have received a report from Barbara Steele, its secretary, excerpts of which follow:

“Gloria’s purpose in going to Washington, D.C., was only given to us in part. It was known she had instructions concerning the construction of a space platform, as a gift from the Space People to our Government in the interests of Peace and as a presentation to the country considered as being most dedicated to planetary welfare and non-aggression.

“The fast was not an expected feature of the Washington trip. We still do not have a complete picture of all that was expected of the fast or intended to be achieved as a result of the fast. We believe it was a sincere effort on Gloria’s part to conform to stepped-up standards of performance as an Instrument. We feel we do not have the whole story as yet.

“We believe the fast may have been intended to last 40 days ... According to a telephone message given to me by Gloria herself,; in November, she felt there was the possibility that she would be placed in a state of temporary coma, physically, and would be given a rest in higher dimensions by her Guides, before returning to take up her work.

“Funeral services were in charge of Gloria’s husband, who requested complete privacy and we have no information on details of time and place.”

Present in Washington, D.C., with Gloria Lee was Hedy Hood, an individual she met last summer and with whom she was conducting joint research.

“It has been ascertained that Gloria, wishes us to continue Cosmon Research Foundation upon the basic principles that have guided it from its inception,” Barbara Steele added. “I will personally accept the responsibility for putting the affairs of Cosmon in order and carrying on the work we were doing together, with the help of the Board of Directors appointed by her, of whom I am one. We feel that this work is part of the overall God-inspired Space Age Plan now in action, and that we have a duty to carry out the duties originally assigned to us and shall do so as faithfully and lovingly as is humanly possible.

Gloria Lee was the author of “Why We Are Here” and “Changing Conditions of Your World.”
